

1984 Roster Cross-Index

The Roster Cross-Index is a list of all merger, acquisition, and divestiture activity completed during calendar year 1984 and reported in the Rosters of *Mergers & Acquisitions* Volume 19 Number 2 (1st Q), Volume 19 Number 3 (2nd and 3rd Qs), and Volume 19 Number 4 (4th Q). All companies, both acquiring and acquired, are listed alphabetically. In addition, where sufficient details are known, private investors also are indexed. Each listing includes all completed transactions in which that company or individual was involved during the year. Of the 2,946 transactions of 1984 that meet our reporting criteria (as defined on page 25), 97.9 percent, or 2,884 were published in the Rosters. Those that were not published were either reported after the close of our deadlines or were not revealed in sufficient detail to meet our criteria until after our deadlines. Details of such transactions are now available through the M&A Data Base.

The following abbreviations are used in the Rosters and the Roster Cross-Index:

acq. — acquired
int. — interest

add. — additional
maj. — majority

rem. — remaining

MERGER WEEK

At Northwestern University

April 28-May 3, 1985

MERGER WEEK at Northwestern is a successful, carefully designed program to increase the knowledge of the professional and the executive so mergers and acquisitions can be made more confidently and more successfully.

The number of companies whose owners and executives relied on their intuition and bargaining ability without the special knowledge necessary to the conclusion of a safe, equitable, profitable merger or acquisition is alarmingly high.

Why take the risk of having people in your organization participate in the merger process with only a nodding acquaintance with the legal, accounting, and financial aspects of the process? Learn how to devise a workable

operational strategy, for this is certainly the fastest route to profitable growth.

The faculty and the course material at Merger Week have been carefully selected. It is simply less expensive to learn how to do it right at Merger Week than to pay the unnecessary price that many have paid for random, unplanned merger and acquisition activity.

Merger Week at Northwestern is sponsored by Executive Programs, J. L. Kellogg Graduate School of Management, and *Mergers & Acquisitions* under the direction of Alfred Rappaport, Leonard Spacek Professor of Accounting & Information Systems, and Charles E. Fiero, Associate Publisher of *Mergers & Acquisitions*, assisted by a distinguished faculty of merger and acquisition experts.

This Same Program Will Be Offered September 15-20, 1985
